Subject: RE: CDC meat packing guidance

To clarify, Dr. Birx asked for the draft graphics to come up to the Task Force for review/consideration....did not ask for meat packing guidance, but FYSA, Redfield decided to attach the meat packing guidance in the package email he sent up to task force with the graphics.

Graphics are listed below. Email attached.

1. IG Schools and Day Camps
2. IG for Childcare Programs
3. IG for Communities of Faith
4. IG for Employers with Vulnerable Workers
5. IG for Mass Transit Administrators
6. IG for Restaurants and Bars

Subject: CDC meat packing guidance

Bob-Your team (Kyle McGowan) is saying that they are not going to send the meat packing guidance through the normal OIRA channel in order to serve Taskforce. We need to make sure it comes in as normal to run our clearance process. Can you make sure your team knows that? We want to process it over the weekend to be ready for early next week.
