Subject: Eastman Kodak Company

Joe,

Please allow me to introduce myself. My name is Kristin Williams and I work for Eastman Kodak Company. We think Kodak can support the effort, but I was hoping for your guidance around the right folks to reach out to for these topics:

Specialty Chemicals

We understand the Administration is focused on a handful of promising drugs. Kodak has a Specialty Chemicals Business in Rochester, NY, with the ability to manufacture chloroquine and hydroxychloroquine. Do you have a contact within the FDA that we can reach out to?

Ventilators

Kodak has locations both in the U.S. and abroad with equipment manufacturing capabilities. If there is a supply chain of parts/materials and a specification, we may have the equipment assembly expertise to help.

Face Masks

Kodak has clean rooms that could be used for assembling face masks if the supply chain of materials is readily available.

I'd appreciate your input. We are eager to help.

Many thanks,
Kristin Williams
