Hi Kristin,

Had a nice discussion with Nagraj. Thanks so much for screening my email quickly to allow us to connect just now. Rick just called to get the update and would like to call you by/before 5pm today (or close to it). Are you available to chat with him and if so what is the best number for him to reach you? On behalf of Rick, BARDA and the USG, thanks for stepping up to help the nation respond to the COVID-19 crisis. Standing by.

Best Wishes,
John

Subject: RUSH REQUEST: UPDATE: Eastman Kodak Company Inquiry: capability to manufacture chloroquine and hydroxychloroquine...

Hi Kristin,

Seems tomorrow morning is too late to connect. Just called your contact number below to see if we can talk definitely within the next 45 minutes. Will be standing by for your call at [REDACTED]...will step away from whatever meeting I am in (Lord only knows where I will be in 30 minutes, haha). Look forward to connecting very soon. Many thanks!

Best Wishes,
CoronaWatch Johnny

Hi Kristin,

Thanks for reaching out. If we can chat tomorrow morning around 8:30am ET, that would be helpful to advance the discussion. Challenging times for sure. Hope you are hanging in there, too. Drinking water from a fire hose is the new normal here at BARDA. My cell is [REDACTED] to call me when you can (8-9am ET window works well most days). Thanks for your interest in working with BARDA and the USG for the COVID-19 response.

Best Wishes,
John

Subject: Eastman Kodak Company Inquiry

John,

Please allow me to introduce myself—my name is Kristin Williams, and I head up Government Relations at Eastman Kodak Company. I received your name from Mary Kosinkski with PhRMA.

Kodak has a specialty chemicals business based in Rochester, New York, and we have the capability to manufacture **chloroquine and hydroxychloroquine**. We are trying to reach out to HHS in order to determine how we can support the effort. Kodak would need a waiver from the FDA's cGMP requirements.

If you could provide any guidance, I'd appreciate your feedback. Please hang in there during these challenging times.

Many thanks,
Kristin Williams
