**Subject:** FW: Update on Administration COVID-19 Efforts 07/23/2020

This is just astounding. Most schools in our region decided on distance learning to start the new school year. How can anyone guarantee that schools can "safely reopen" under the circumstances as cases are surging across the USA? Why put students and extended families at risk? This administration is living in an alternative and dangerous reality.

---

**Subject:** Update on Administration COVID-19 Efforts 07/23/2020

Good evening,

President Trump and his Administration are committed to ensuring schools safely reopen in the fall and empowering parents to make decisions about their children’s education. Today, the CDC released new resources and tools for school administrators, teachers, parents, guardians, and caregivers when schools open this fall.

- Evidence indicates that COVID-19 poses relatively low risks to school-aged children.
  - Data suggests that children and adolescents under 18 years old account for under 7 percent of COVID-19 cases, and 99.96 percent of all fatalities are adults.
- President Trump is calling for legislation to ensure that schools have the funding and incentives they need to safely reopen this fall and to provide families with school choice.
  - To encourage schools to make in-person classes available this fall, the President is requesting $105 billion in education funding as part of the next coronavirus relief bill—$70 billion of which will directly support K-12 education. Approximately $35 billion of the $70 billion will be reserved for schools that reopen.
- Lengthy time away from school harms a student’s ability to advance academically, prevents educators from best ensuring the wellbeing of students, and makes it difficult for parents to work, potentially hampering the financial security of millions of working American families.
  - Studies have showed that due to shutdowns last spring, the average student will begin this school year roughly 35 percent behind in reading and more than 50 percent behind in math compared to a typical year.
  - Estimates from the Council of Economic Advisors suggest that 5.6 million parents will be unable to return to work if schools do not reopen this year.
- Long-term school closures adversely impact students from all backgrounds, especially those with fewer resources.
  - According to a survey by EdTrust, 50 percent of low-income and 42 percent of families of color lack sufficient devices at home to access distance learning.
  - McKinsey & Co. has found that school shutdowns deprive lower income students of vital support and engagement, resulting in disproportionate learning losses.
  - Nationwide, nearly 30 million American students rely on schools for free or reduced meals.
- Without in-person learning, educators are also unable to monitor important learning deficits, as well as report signs of abuse and address mental health problems.
  - More than 70% of children receiving mental health services do so at school, and nearly all therapies for children with intellectual or physical disabilities are performed at school.
  - According to Federal data, education personnel report one in five cases alleging child abuse or neglect.

Additionally, SBA released new Paycheck Protection Program (PPP) and EIDL guidance:

- SBA Procedural Notice: Procedures for Lender Submission of Paycheck Protection Program Loan Forgiveness Decisions to SBA and SBA Forgiveness Loan Reviews (Released July 23, 2020)
  - The PPP Forgiveness Platform will go live and begin accepting Lender submissions on August 10, 2020, subject to extension if any new legislative amendments to the forgiveness process necessitate changes to the system.
- SBA Information Notice on Guidance Regarding Identification and Reporting of Suspicious Activity in the COVID-19 EIDL Loan Program (Released July 22, 2020)
Good News of the Day: Welcome back baseball!

Assistance for Small Businesses
Paycheck Protection Program (PPP): The Paycheck Protection Program is providing small businesses with the resources they need to maintain their payroll, hire back employees who may have been laid off, and cover applicable overhead. On June 6, the President signed legislation providing more flexibility and relief for small businesses including extending the covered period for loan forgiveness from 8 weeks after the date of loan disbursement to 24 weeks and lowering the requirements that 75% of a borrower’s loan proceeds must be used for payroll costs to 60%.

For more information and updates, visit Treasury.gov/CARES and SBA.gov/PayCheckProtection.

**Economic Injury Disaster Loans & Advance Program:** SBA’s Economic Injury Disaster Loans and Advance Program has reopened its portal to all eligible small businesses and non-profits impacted by COVID-19 pandemic. The reopened portal can be found here.

- **Deadline for Support:** Small businesses must apply by December 31, 2020.
- **Loan Program:** The Loan Program offers long-term, low interest assistance for a small business or non-profit. State-by-State data can be found here.
- **Advance Program:** The Advance Program will provide up to $10,000 ($1,000 per employee) of emergency economic relief to businesses that are currently experiencing temporary difficulties, and these emergency grants do not have to be repaid. State-by-State data can be found here.

**Assistance for American Workers and Families**

![Pledge to America's Workers](image)

**American Workforce Policy Advisory Board – Call to Action:** The American Workforce Policy Advisory Board has released a call-to-action to help the millions of workers who need assistance now, and build the resilient and agile workforce of the future powered by skilled American workers. Specific actions:

- Expedite American workers’ return to employment and upward mobility by investing in career pathways and implementing skills-based hiring practices.
- Remove obstacles to the modernization of American education and training to accelerate reskilling and facilitate innovation in workforce development.
- Build the technological infrastructure necessary for the future of work.

**Economic Impact Payments:** The CARES Act provides for Economic Impact Payments to American households of up to $1,200 per adult for individuals whose income was less than $99,000 (or $198,000 for joint filers) and $500 per child under 17 years old – or up to $3,400 for a family of four. More information can be found here.

**Preserving Jobs for American Industry:** The CARES Act offers meaningful financial support to American businesses and job creators so they can better support employees and be prepared to get back to business as soon as possible. More information can be found here.

**Supporting Child Care:** The CARES Act provided an additional $3.5 billion to the Child Care and Development Block Grant to support families with child care options during this public health crisis. Additional information and State-level information can be found here.

**Dislocated Worker Grants:** The U.S. Department of Labor is providing Dislocated Worker Grants to prevent, prepare for and respond to COVID-19. State-by-State data and additional details can be found here.

**Assistance for Communities**

**CARES Act Recovery Assistance Grants:** The U.S. Department of Commerce’s Economic Development Administration (EDA) is awarding CARES Act Recovery Assistance Grants to assist communities in responding to the coronavirus pandemic. These grants are being administered under the authority of the bureau’s flexible Economic Adjustment Assistance (EAA) program, which provides a wide-range of financial assistance to eligible communities and regions as they respond to and recover from the impacts of the coronavirus pandemic. For complete information, please visit the recently updated EDA CARES Act Recovery Assistance page.

**Opportunity Zones:** Opportunity Zones were created under the 2017 Tax Cuts and Jobs Act, signed into law by President Donald J. Trump on December 22, 2017, to stimulate economic development and job creation, by incentivizing long-term investments in low-income neighborhoods. During the COVID-19 pandemic, President Trump directed the White House Opportunity and Revitalization Council to focus on underserved communities impacted by the virus. For more information, visit opportunityzones.gov.

**How to Help**

If you or your organization are interested in helping the effort to combat the spread of COVID-19, FEMA has established a website (www.fema.gov/coronavirus/how-to-help) with more information. Examples for the private sector include:

**Donate Supplies and Equipment**

- If you represent a business that would like to donate medical supplies, equipment or pharmaceuticals, please provide details on what you would like to give. This form is for donations only.

**Sell Supplies and Equipment**

- If you are interested in doing business with FEMA with your company’s non-medical goods and/or services, submit your inquiry to the Department of Homeland Security (DHS) Procurement Action Innovative Response Team (PAIR) team at DHSIndustry.Liaison@hq.dhs.gov.
- The federal government is purchasing medical supplies or equipment under the Defense Logistics Agency (DLA) Request for information (RFI). Visit the DLA website for more information.
Developing Medical Countermeasures

• If you would like to meet with a federal agency regarding a vaccine, diagnostic, therapeutic or other medical device that you are developing for SARS-CoV-2 or COVID-19, please go to medicalcountermeasures.gov.

Other Forms of Help

• If you or someone you know represent a hospital or healthcare provider in need of medical supplies, please contact your state, local, tribal or territory department of public health and/or emergency management agency.
• If you represent a private sector business and wish to learn more about getting involved in a way that is not listed here, please e-mail nbeoc@max.gov or visit our National Business Emergency Operations Center page.

For additional information, please visit FEMA’s website: https://www.fema.gov/coronavirus/.

Guidelines for Opening Up America Again

President Trump has unveiled Guidelines for Opening Up America Again, a three-phased approach based on the advice of public health experts. These steps will help state and local officials when reopening their economies, getting people back to work, and continuing to protect American lives. Please click here for more information: Guidelines for Opening Up America Again

• Testing Overview (HERE)
• Testing Blueprint (HERE)
• Guidance for Cleaning and Disinfecting Public Spaces, Workplaces, Businesses, Schools and Homes (HERE)

CDC Releases New Resources and Tools to Support Opening Schools (HERE)

• "It is critically important for our public health to open schools this fall," said CDC Director Dr. Robert R. Redfield. "The CDC resources released today will help parents, teachers and administrators make practical, safety-focused decisions as this school year begins. I know this has been a difficult time for our Nation’s families. School closures have disrupted normal ways of life for children and parents, and they have had negative health consequences on our youth. CDC is prepared to work with K-12 schools to safely reopen while protecting the most vulnerable."

NIH Leadership Details Unprecedented Initiative to Ramp up Testing Technologies for COVID-19 (HERE)

• In a paper in the New England Journal of Medicine, scientific leaders from the National Institutes of Health set forth a framework to increase significantly the number, quality and type of daily tests for detecting SARS-CoV-2, the virus that causes COVID-19, and help reduce inequities for underserved populations that have been disproportionately affected by the disease.

I Think or Know I had COVID-19, and I had Symptoms. When Can I Be With Others? (HERE)

• If you have or think you might have COVID-19, it is important to stay home and away from others. When you can be around others depends on different factors for different situations.

CDC COVID-19 Partner Update: Non-healthcare Workplace Contract Tracing and Testing Strategy (HERE)

• Dr. Brooks shared updates on CDC’s COVID-19 response, including the latest scientific information and what everyone should know about protecting themselves and others. In addition, Dr. Luckhaupt and Dr. Piacentino reviewed CDC’s guidance related to the use of testing strategies in non-healthcare workplaces and other workplace safety information.

EPA Offers Consumers Additional Options for COVID-19 Disinfectants (HERE)

• “Since day one, EPA’s priority has been to provide the public with easy access to the information they need to protect themselves and their families from the virus that causes COVID-19,” said EPA Administrator Andrew Wheeler. “Through our efforts to expand List N, we are ensuring that Americans have a broad set of approved products to clean and disinfect surfaces to help reduce the spread of the coronavirus.”
USDA Provides Update on Investigation Following 2019 Tyson Beef Plant Closure and COVID-19 Pandemic (HERE)

- As part of its commitment to ensuring fair and competitive markets for the livestock, meat and poultry industries, today the U.S. Department of Agriculture (USDA) released a Boxed Beef and Fed Cattle Price Spread Investigation Report on its ongoing boxed beef and fed cattle price spread investigation.

USDA Approves Arkansas and Hawaii to Accept SNAP Benefits Online (HERE)

- U.S. Secretary of Agriculture Sonny Perdue today announced approval of a request from Arkansas and Hawaii to provide online purchasing of food to Supplemental Nutrition Assistance Program (SNAP) households.

State of Nevada Receives $18.4 Million Grant for PPE (HERE)

- The Federal Emergency Management Agency (FEMA) approved $18.4 million to reimburse the State of Nevada for the purchase of Personal Protective Equipment (PPE) to prevent the spread of COVID-19 and protect the health and safety of state, county, and tribal personnel, healthcare facility workers, and first responders.

Department Of Justice Issues Business Review Letter to Monoclonal Antibody Manufacturers to Expedite and Increase the Production of Covid-19 Mab Treatments (HERE)

- The United States Department of Justice announced today that it will not challenge proposed efforts by Eli Lilly and Company, AbCellera Biologics, Amgen, AstraZeneca, Genentech, and GlaxoSmithKline (together, the Requesting Parties) to share information about manufacturing facilities and other information that could enable them to expedite the production of monoclonal antibody treatments that are determined to be safe and effective to treat COVID-19.

Washington Tech Executive Charged with COVID-Relief Fraud and Money Laundering (HERE)

- A Washington tech executive was taken into custody today and charged with fraudulently seeking over $5.5 million in Paycheck Protection Program (PPP) loans and laundering the proceeds, announced Acting Assistant Attorney General Brian C. Rabbitt of the Justice Department’s Criminal Division and U.S. Attorney Brian T. Moran of the U.S. Attorney’s Office for the Western District of Washington.

FDA Daily Roundup - July 23, 2020 (HERE)

- The U.S. Food and Drug Administration continues to announce actions taken in its ongoing response effort to the COVID-19 pandemic.

Register for the DOT Opportunity Zones Program Update Webinar (HERE)

- The United States Department of Transportation's (DOT) Office of Small and Disadvantaged Business Utilization (OSDBU) invites you to participate at the Department's “Opportunity Zones Program” Updates Webinar to be held on Wednesday, July 29th. The webinar will start promptly at 2:00 pm, EDT. This webinar will update the public on the recent pandemic of COVID-19, and its impact on the Opportunity Zones program within the U.S. Department of Transportation.

U.S. Department of Commerce Continues to Invest CARES Act Funding to Boost Economic Development Programs Critical to Helping Communities Respond to Coronavirus (HERE)

- EDA CARES Act Recovery Assistance, which is being administered under the authority of the bureau’s flexible Economic Adjustment Assistance (EAA) program, provides a wide-range of financial assistance to eligible communities and regions as they respond to and recover from the impacts of the coronavirus pandemic.
